Krishna Yaswanth — Front End Engineer

Bengaluru, India — +91 7093440040 — yashwanthdk@gmail.com — LinkedIn — GitHub

Technical Skills

Languages	JavaScript (ES6+), TypeScript, HTML5, CSS3
Frontend	React.js, Next.js, React Router, Vite
State	Redux Toolkit, Zustand, Context API
Styling	Tailwind CSS, SCSS, CSS Modules
Data	React Query, Axios, REST APIs
UI	shadcn/ui, Radix UI, React Hook Form, Recharts, React Konva
Tools	Git, GitHub, Jira, Postman, VS Code
Backend	Java, Spring Boot, Node.js, MongoDB (Working Knowledge)

Professional Experience

Front End Engineer **Feb 2025 – Present**

Edsanta Education Pvt. Ltd. *Bengaluru, India*

- Own the end-to-end frontend development of an enterprise Learning Management System (LMS) supporting students, faculty and administrators with role-based access, analytics dashboards and personalized learning experiences.
- Redesigned and modernized the complete LMS user interface by translating Replit-based designs into production-ready React applications, delivering the UI revamp in two weeks and stabilizing major production issues within the following week.
- Engineered a custom collaborative whiteboard using React Konva with recording, image export and annotation capabilities, enabling interactive learning experiences.
- Integrated SCORM-compliant learning packages with learner progress tracking and analytics, enabling seamless course delivery and reporting within the LMS.
- Led frontend modernization by migrating from Create React App to Vite, SCSS to Tailwind CSS and Redux to Zustand, reducing build times from approximately 5 minutes to 45 seconds while significantly improving first-load performance and developer productivity through faster hot module replacement.

Frontend Developer (Intern) **Aug 2024 – Feb 2025**

AppBrigade Technologies *Bengaluru, India*

- Developed production-ready enterprise web applications using Next.js App Router, TypeScript and Tailwind CSS.
- Designed reusable and type-safe UI components while integrating REST APIs and secure cookie-based authentication.
- Collaborated with backend engineers to implement scalable frontend modules with responsive and pixel-perfect interfaces.
- Optimized routing, rendering and application performance using Next.js best practices.

Associate Software Engineer **Sep 2022 – Apr 2024**

Capgemini *Chennai, India*

- Developed and enhanced React.js applications for enterprise clients by implementing reusable UI components and business-critical features.
- Integrated REST APIs and collaborated with backend teams to deliver reliable and scalable frontend functionality.
- Debugged complex application issues involving routing, state management and asynchronous data flows, improving overall application stability.
- Worked within Agile teams, contributing to sprint planning, feature delivery and continuous code quality improvements.

Featured Project

InsightFlow – Enterprise Analytics Dashboard | *React.js, TypeScript, Zustand, React Query, Tailwind CSS, shadcn/ui*

- Building a scalable analytics dashboard featuring authentication, role-based access control and reusable component architecture.
- Implementing server-state management using React Query and global state management using Zustand.
- Developing interactive dashboards with charts, advanced filtering, pagination and responsive layouts using Recharts and Tailwind CSS.
- Applying performance optimizations including lazy loading, memoization and efficient rendering strategies.

Education

PES University **Bengaluru, India**

B.Tech in Electrical and Electronics Engineering (Minor in Computer Science) *2018 – 2022*
